IT Project Manager | Business Analyst | Data Analyst

PROFESSIONAL SUMMARY

IT Project Manager and Business Analyst with 3 years of hands-on experience through work-study programs in the insurance and software industries. Master's degree in IT Consulting and Information Systems Management. Skilled in end-to-end project delivery, business requirements gathering, HR information systems (HRIS), ITSM tool administration (Jira, ServiceNow, Confluence), and data analysis (SQL, KPIs, dashboards). Software development background that bridges business stakeholders and engineering teams. International experience in Thailand.

PROFESSIONAL EXPERIENCE

Groupama Supports & Services — **Montpellier, France**
IT Project Manager / HRIS Business Analyst (Work-Study Program) — Sep 2024 – Sep 2026

- Managed IT projects end to end: scoping, planning, milestone tracking, steering committee reporting, and launch.
- Gathered and analyzed business requirements from HR and business teams; wrote user stories and detailed functional specifications in Jira.
- Administered the group's centralized HR information system: configuration, workflows, access management, Level 2 support, and application maintenance.
- Designed and delivered an MVP that automated daily batch-job checks, classifying anomalies and generating the monitoring report automatically.
- Led requirements, user stories, and user acceptance testing (UAT) for an expense-management cost center project through pre-production sign-off.
- Built SQL extractions, KPIs, and dashboards for HR reporting; created a CSV comparison tool to validate HR data quality.
- Managed ServiceNow tickets (ITIL), trained end users, and coordinated multi-entity rollouts across the group.

Aitec Service — **Massillargues-Attuech, France**
Web and Mobile Developer (Work-Study Program) — Sep 2023 – Aug 2024

- Developed a responsive web dashboard and cross-platform mobile applications (iOS, Android) using React, React Native, and Flutter.
- Designed SQL databases with a secure multi-tenant architecture for a SaaS product.
- Worked in a full Agile Scrum cycle (daily stand-ups, sprint planning, reviews, retrospectives); maintained applications and technical documentation.

Web Developer Intern — Apr 2023 – Jul 2023

- Migrated a legacy Flex application to React and TypeScript as part of the development team.

EDUCATION

Master's Degree, IT Consulting and Information Systems Management — **2024 – 2026**
IAE Montpellier School of Management, University of Montpellier, France · Thesis: Impact of IT process automation on operational performance

Bachelor's Degree, Management of Technology and Science — **2023 – 2024**
IAE Montpellier School of Management, University of Montpellier, France

Bachelor of Technology, Computer Science (3-year degree) — **2021 – 2024**
IUT Montpellier-Sète, University of Montpellier, France

CERTIFICATIONS

Global Seminar in IT Management, Certificate of Completion — **Mar 2026**
Burapha Business School, Burapha University, Thailand

- Designed and presented an information system modernization plan for a local Thai company; program taught in English.
